

Stop Googling. Start Searching Smarter.

Two AI tools that give you answers — not just links.

Perplexity AI
AI Answer Engine · Free

VS

You.com
AI Search Engine · Free

⚙️ HOW EACH TOOL ACTUALLY WORKS

Perplexity AI
The Answer Engine

1

You ask a question in plain language

2

It scans the entire web in real-time

3

Reads top sources and summarizes them

4

Gives ONE direct answer with source citations

5

You can ask follow-up questions naturally

You.com
The Personalized AI Search

1

You type your query or question

2

Choose your mode — Smart, Genius or Research

3

AI searches web with your preferred sources

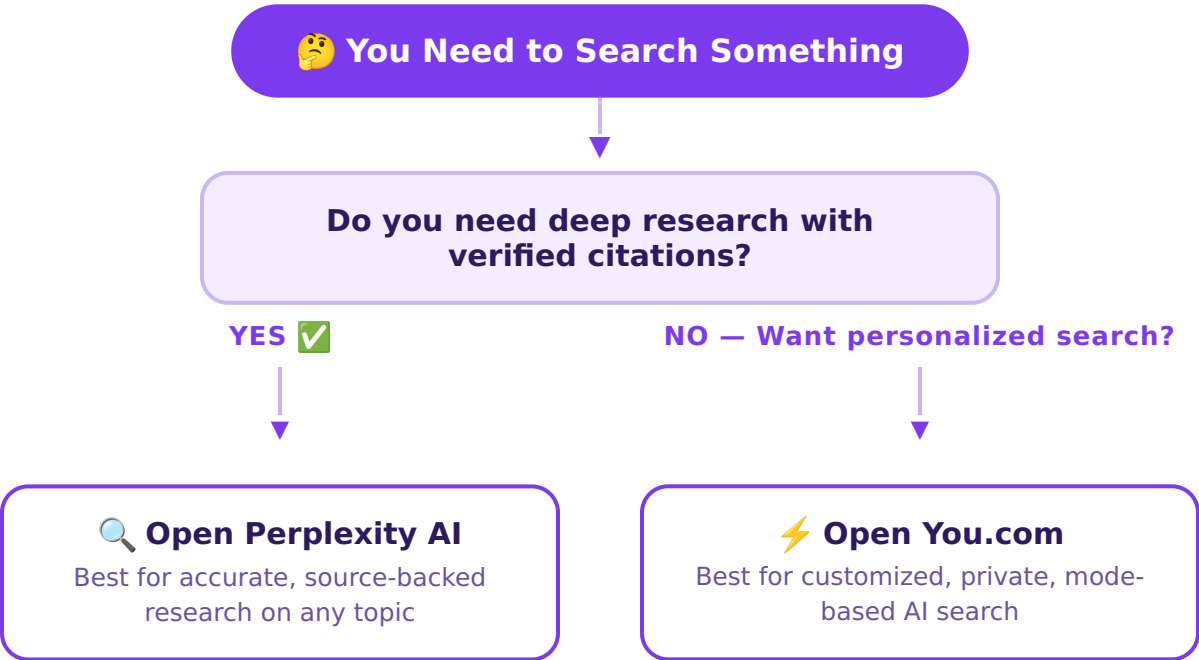

4

Delivers cited answers tailored to your style

5

Build custom AI assistants for repeated tasks

⚡ WHICH TOOL SHOULD YOU OPEN?

Use Perplexity When...

Researching for assignments with verified sources

Getting latest tech news with citations

Understanding complex engineering topics simply

Summarizing research papers with source links

Use You.com When...

Searching with personalized modes and preferences

Searching privately without being tracked

Building custom AI assistant for repeated tasks

Searching coding solutions in Research mode
